

# How to set up your dynamic fundraising badge in Facebook.

1. Log in to your participant Centre at <https://supportthepmcf.ca/ui/NP22/login>
2. Click the Get Social button.

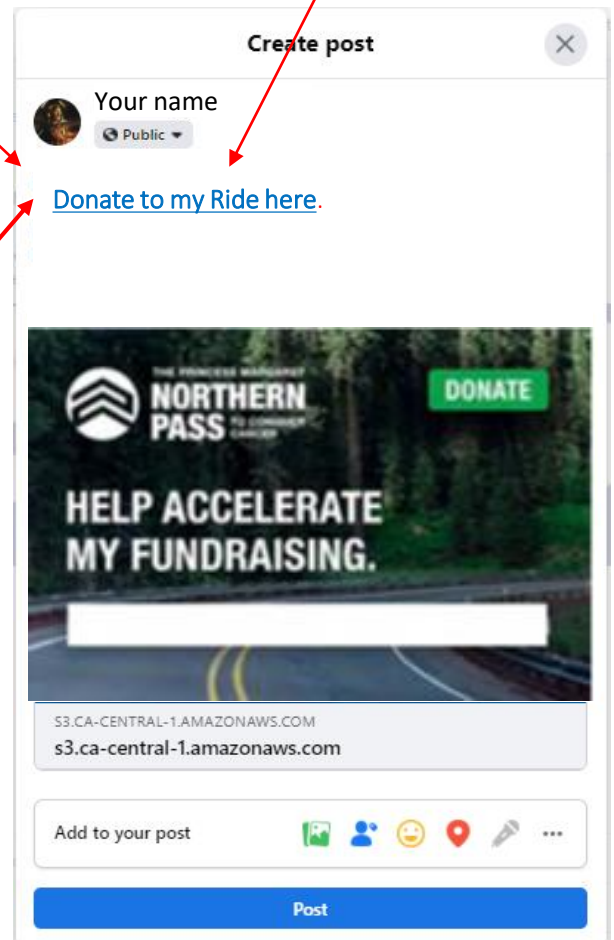

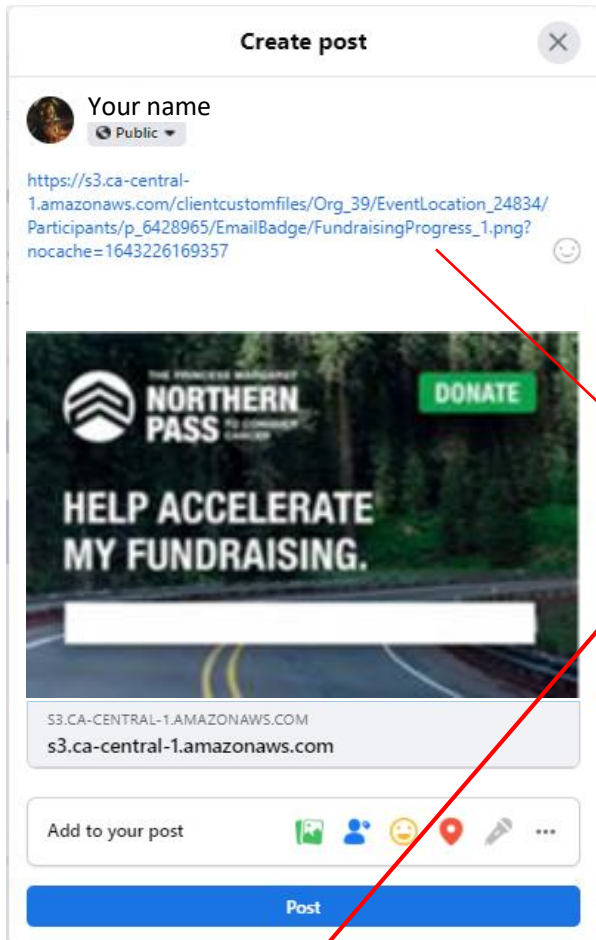

3. Under Get Social Fundraising Badge, click Copy to clipboard, then see the pop-up that the URL was copied to clipboard.”

Note: you can also paste this URL into your social posts to share your badge with your networks.

4. Create a new post in Facebook or LinkedIn (Facebook is used for this example). Paste the URL. Note that this is pasted as an image only along with the long URL of the image. You can delete the link text "[https://s3.ca-central-1.amazonaws.com/clientcustomfiles/Org\\_39/EventLocation\\_24834/Participants/p\\_6428965/EmailBadge/FundraisingProgress\\_1.png?nocache=1643226169357](https://s3.ca-central-1.amazonaws.com/clientcustomfiles/Org_39/EventLocation_24834/Participants/p_6428965/EmailBadge/FundraisingProgress_1.png?nocache=1643226169357)" and the image will remain.

Also, the image will not link to your fundraising page, therefore you may want to include a link to your page inside your post.

The link to your page can be found by clicking "My Page" in your Participant Centre, then copying the URL of that page.
